Over 200 health care professionals and medical librarians collaborated to create the 2018 edition of this comprehensive collection development resource which rates core titles in 121 specialty areas in health sciences, basic sciences, clinical medicine, allied health, associated health professions and nursing.

Doody's Core Titles are titles that represent essential knowledge needed by professionals or students in a given discipline and are highly recommended for the collection of a library that serves health sciences specialists.

Doody's Essential Purchase Titles are titles considered essential purchases in a specialty for libraries by the Doody’s Essential Collection Development Tool for Libraries of All Sizes.
